Finish adhesion (N/cm) DIN EN ISO 11644	> 3,5 N/cm
Flexing endurance dry DIN EN ISO 5402 (30.000 bucklings)	No cracks
Fire protection standard DIN EN 1021 Part 1+2 BS 5852 1990 DSec. 4 NI/0-1 California T.B. 117	Passed Passed Passed

Quality test certificate in accordance to DGM guidelines 2016

Please note that this test certificate does not relieve the customer of his obligation to inspect incoming goods and may claim of third parties to whom it is passed. It is not a property assurance in legal sense.

CLEANING AND CARE INSTRUCTION

HIGHLIGHT is a shiny leather with a metallic effect

For everyday cleaning, it is sufficient to occasionally dust off the leather with a **feather duster** or a dry **dust cloth**.

Visible dirt and stains can be cleaned with **Leather Cleaner Mild**. Fresh stains can be removed immediately with a soft cloth or paper towel. Don't rub too hard! Clean remaining dirt and stains with Mild Leather Cleaner.

For difficult stains, it is always better to contact a specialist first. Damage can easily occur due to improper cleaning attempts.

For maintenance, we recommend **Elephant Leather Preserver**. It keeps the leather soft and supple and maintains the slight shine. First rub the leather fat in a terry cloth and then apply thin layers.

Depending on the strain, heat, and light intensity, the leather should be sparingly maintained every three to twelve months.
