CLEANING AND CARE INSTRUCTION

OLD TIMES is leather with a traditional antique finish.

For everyday cleaning, it is sufficient to occasionally dust off the leather with a feather duster or a dry dust cloth.

Stains and visible dirt can be cleaned with a damp terry cloth and Leather Cleaner Mild. Not too wet to avoid water marks. Always practice a cleaning test in a hidden area! Be especially careful with lighter leather.

For difficult stains, it is always better to contact a specialist first. Damage can easily occur due to improper cleaning attempts.

For maintenance, we recommend Leather Protector. It's a protective cream with the necessary moisturizing oils and UV protection. It protects the leather from fading and keeps it soft.

Depending on the strain, heat, and light intensity, the leather should be sparingly maintained every three to twelve months.
