

BUTTER

BUTTER is typical for Leder-Fiedler premium products: extraordinary, particular and hard to make. BUTTER is a smooth, bulky, vacuum-dried leather, noted for its full, balanced hand. BUTTER is soft while remaining plane, has the look of saddle leather and is very delicately finished, leaving the leather's natural character intact.

BUTTER is a tactile delight that must be experienced!

Application: Clothing, Upholstery, leather goods

Colours: 13 colours on stock

Thickness: 1.4/1.6 mm

Quality test certificate in accordance to DGM guidelines 2016

Please note that this test certificate does not relieve the customer of his obligation to inspect incoming goods and may claim of third parties to whom it is passed. It is not a property assurance in legal sense.

CLEANING AND CARE INSTRUCTION

BUTTER is a high-quality soft leather with a fine wax finish. Due to the thin protective layer, this leather is pleasantly warm, but not too sensitive.

For everyday cleaning, it is sufficient to occasionally dust off the leather with a **feather duster** or a dry **dust cloth**.

Stains can be additionally cleaned with a damp terry cloth and **Leather Cleaner Mild**. Not too wet to avoid water marks. Dry the darkened area with a hair dryer to avoid water marks. Always practice a cleaning test in a hidden area! Especially be careful with lighter leather.

For difficult stains, it is always better to contact a specialist first. Damage can easily occur due to improper cleaning attempts.

For regular treatment of Aniline leather we recommend **Aniline Cream**. The Aniline Cream prevents stains and dirt and keeps the leather soft and smooth.

Older leather and leather which is regular exposed to sun or near a fireplace should additionally be treated with **Aniline Protector**. The Aniline Protector provides the necessary moisturizing of dry leather and prevents fading.

Depending on the strain, heat, and light intensity, the leather should be sparingly maintained every three to twelve months.
