

## ORIGINAL NECKLEDER

ORIGINAL NECKLEDER is made from heavy, un-split bull hides. Our NECKLEDER is incredibly soft despite a thickness of 3 mm. The hides receive a distinctively coarse and natural tumble pattern through a final milling process. ORIGINAL NECKLEDER is delicately finished, making it perfectly family friendly. Only few companies are skilled enough to handle ORIGINAL NECKLEDER, but those that can are rewarded with beautifully unique pieces of furniture.

**Application:** upholstery, leather goods

**Colours:** 13 colours on stock

**Thickness:** 3+ mm

**Custom colours:** 150 m<sup>2</sup> per colour

**Delivery:** from our warehouse in Bodenwerder, Germany

30 tours perspiration pH 8	≥ 3
Colour fastness to light DIN EN ISO 105-B02 (WBS-level)	≥ 3
Tear strength (N/mm) DIN EN ISO 3377-1	≥ 20N
Flexing endurance dry DIN EN ISO 5402 (20.000 bucklings )	No cracks
Fire protection standard DIN EN 1021 Part 1+2	Passed

Quality test certificate in accordance to DGM guidelines 2016

Please note that this test certificate does not relieve the customer of his obligation to inspect incoming goods and may claim of third parties to whom it is passed. It is not a property assurance in legal sense.

## **CLEANING AND CARE INSTRUCTION**

---

ORIGINAL NECKLEDER is an easy-to-care leather with a deep graining.

For everyday cleaning, it is sufficient to occasionally dust off the leather with a feather duster or a dry dust cloth.

Stains and visible dirt can be cleaned with a damp terry cloth and Leather Cleaner Mild. Not too wet to avoid water marks. Always practice a cleaning test in a hidden area! Be especially careful with lighter leather.

For difficult stains, it is always better to contact a specialist first. Damage can easily occur due to improper cleaning attempts.

For maintenance, we recommend Leather Protector. It's a protective cream with the necessary moisturizing oils and UV protection. It protects the leather from fading and keeps it soft.

Depending on the strain, heat, and light intensity, the leather should be sparingly maintained every three to twelve months.
