## **CLEANING AND CARE INSTRUCTION**

---

CREOLO is a leather with a traditional antique finish.

For everyday cleaning, it is sufficient to occasionally dust off the leather with a **feather duster** or a dry **dust cloth**.

Visible dirt and stains can be cleaned with **Leather Cleaner Mild**. Fresh stains can be removed immediately with a soft cloth or paper towel. Don't rub too hard! Clean remaining dirt and stains with Mild Leather Cleaner.

For difficult stains, it is always better to contact a specialist first. Damage can easily occur due to improper cleaning attempts.

For maintenance, we recommend **Elephant Leather Preserver**. It keeps the leather soft and supple and maintains the slight shine. First rub the leather fat in a terry cloth and then apply thin layers.

Depending on the strain, heat, and light intensity, the leather should be sparingly maintained every three to twelve months.
