

VALCONA

VALCONA is a beautifully soft, top of the line, pure aniline leather, made from the finest South German cow hides. The production takes place in Germany using high-grade pigments and fat liquors, developed specifically for this leather. VALCONA is a real experience - since we do away with all finishing in production, VALCONA ends up supple, soft and warm from the very first touch. To know VALCONA is to love it!

Burning rate (mm/min) DIN 75200	< 100
Fire protection standard DIN EN 1021 Part 1+2	Passed

Quality test certificate in accordance to DGM guidelines 2016

Please note that this test certificate does not relieve the customer of his obligation to inspect incoming goods and may claim of third parties to whom it is passed. It is not a property assurance in legal sense.

CLEANING AND CARE INSTRUCTION

VALCONA is a high-quality aniline leather. Aniline leather is soft, warm and open pored full grain leather. Due to the open pores aniline leather is slightly sensitive.

For everyday cleaning, it is sufficient to occasionally dust off the leather with a **feather duster** or a dry **dust cloth**.

Stains can be additionally cleaned with a damp terry cloth. Not too wet! Dry the darkened area with a hair dryer to avoid remaining water marks. Always practice a cleaning test in a hidden area! Be especially careful with lighter leather.

For difficult stains, it is always better to contact a specialist first. Damage can easily occur due to improper cleaning attempts.

For regular treatment of Aniline leather we recommend **Aniline Cream**. The Aniline Cream prevents stains and dirt and keeps the leather soft and smooth.

Older leather and leather which is regular exposed to sun or near a fireplace should additionally be treated with **Aniline Protector**. The Aniline Protector provides the necessary moisturizing of dry leather and prevents fading.

Depending on the strain, heat, and light intensity, the leather should be sparingly maintained every three to twelve months.
